EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Claims 9-19 have been cancelled.

Claims 9-19 have been cancelled without prejudice to Applicant's right to file a divisional application.

The following is an examiner's statement of reasons for allowance:

Claims 1-8 are allowable because there is no teaching or suggestion in the prior art of a coating film layer moisture adjusting device, for adjusting, to a target moisture content, a moisture content of the coating film layer formed by applying a coating solution to an elongated band-shaped support, which support web is continuously conveyed, the device comprising the combination of a humidity conditioning zone for having a protective sheet material, which is formed in an elongated sheet-shape and is to be adhered to a surface of the coating film layer formed on the support, pass therethrough; humidity conditioning means for adjusting humidity in the humidity conditioning zone; adhering means, which is disposed at a downstream side of the humidity conditioning zone and is for continuously adhering the protective sheet material to the surface of the coating film layer; moisture content measuring means which is

disposed at an upstream side of the adhering means in a conveyance route of the support web and is for measuring a moisture content of the coating film layer; and humidity conditioning control means for controlling the humidity conditioning means so that the humidity in the humidity conditioning zone becomes a target humidity corresponding to the measured moisture content of the coating film measured by the moisture content measuring means and the target moisture content, and adjusting the moisture content of the protective sheet material, which has passed through the humidity conditioning zone, to an adjusted moisture content corresponding to the measured moisture content and the target moisture content.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following patents disclose the state of the art with respect to planographic plate manufacturing: Takekoshi (US 5,604,990), Japanese Patent No. 8-146597, and Japanese Patent No. 10-254187.
